

August 25, 2020

Good afternoon WLMS Community!

It was with great pleasure and excitement today that we welcomed our amazing staff back to the Lake for the 20-21 school year. They spent the day in virtual sessions learning about the framework, changes, and expectations for our fall virtual setting. We spent time discussing our work around racial equity, digital teaching, and learning that ties directly to the HCPSS Strategic Call To Action. We are excited to spend the next two weeks collaborating and planning to ensure we connect and engage our young people in the WLMS way.

Please know that we miss the students and are counting down till September 8 with extreme enthusiasm when we officially welcome all our Tiger Sharks. As we head into next week a member of our staff will be reaching out to each individual student to check in and see if there is anything, we can do to support them prior to our first day together.

Please complete the following items this week to help your student prepare for virtual learning at the Lake:

1. Update Family File through <https://www.hcpss.org/connect/>.
2. Have your student practice logging onto Canvas to familiarize themselves and to make sure they remember their password. If they do not remember their password, staff will be helping you when they make their calls or you can reach out [james mcvey@hcpss.org](mailto:james_mcvey@hcpss.org)
3. Also, please discuss a daily routine with your student

As always, we thank you for your continued support and reach out with any questions.

Have a great day,

Mr. Rattay
